The International Conference on Digital Image Computing: Techniques and Applications (DICTA) is the main Australian Conference on computer vision, image processing, pattern recognition, and related areas. DICTA was established in 1991 as the premier conference of the Australian Pattern Recognition Society (APRS). DICTA 2016 is technically co-sponsored by the Institute of Electrical and Electronics Engineers (IEEE) and the International Association for Pattern Recognition (IAPR). All papers presented at the conference will be included in IEEE Xplore.

Topics include, but are not limited to:

- Image coding and processing
- Shape and texture analysis
- Surveillance, defence and industrial applications
- Remote sensing and spectral imaging
- Astronomical image analysis
- Statistical and structural pattern recognition
- Computer vision
- Machine learning
- Human-computer interaction
- Biomedical and e-health applications
- Content-based image retrieval and image databases

**Paper Submission deadline: 15<sup>th</sup> July 2016**
